

# Edina Police Operations Manual

Policy Number  
680.00

Subject:

## LINE-UP/SUSPECT IDENTIFICATION

Effective Date  
06/01/1993

Revised Date  
01/27/2021

Page 1 of 6

### PURPOSE:

To establish guidelines to be used when utilizing witnesses in the identification of suspects.

**680.01**

### GENERAL STATEMENT OF POLICY

It is the policy of the Edina Police Department to conform to all procedures established by statute and/or case law in regard to the proper identification or elimination of suspects.

**680.02**

### DEFINITIONS

For the purposes of this section the following terms are defined as:

#### **Subd. 1 Show-up**

The presentation of a suspect to an eyewitness within a short time frame following the commission of a crime to either confirm or eliminate a subject as a possible perpetrator. Show-ups, sometimes referred to as field identifications, are conducted in a contemporaneous time frame and proximity to the crime.

#### **Subd. 2 Line-up**

The process of presenting live individuals to an eyewitness for the purpose of identifying or eliminating suspects.

#### **Subd. 3 Photo Array**

A means of presenting photographs to an eyewitness for the purpose of identifying or eliminating suspects.

#### **Subd. 4 Administrator**

The law enforcement official conducting the identification procedure.

#### **Subd. 5 Blinded Presentation**

The administrator may know the identity of the suspect, but does not know which photo array member is being viewed by the eyewitness at any given time.

**Subject:****LINE-UP/SUSPECT IDENTIFICATION****Page 2 of 6****Subd. 6 Confidence Statement**

A statement in the witness's own words taken immediately after an identification is made stating his or her level of certainty in the identification.

**Subd. 7 Filler**

A live person, or a photograph of a person, included in an identification procedure who is not considered a suspect.

**Subd. 8 Sequential**

Presentation of a series of photographs or individuals to a witness one at a time.

**Subd. 9 Simultaneous**

Presentation of a series of photographs or individuals to a witness all at once.

**680.03 SHOW-UP IDENTIFICATION PROCEDURE**

- Subd. 1** The use of show-ups should be avoided whenever possible in preference to the use of a lineup or photo array procedure. However, when circumstances require the prompt presentation of a suspect to a witness, the following guidelines shall be followed to minimize potential suggestiveness and increase reliability.
- a) Document the witness's description of the perpetrator prior to conducting the show up.
  - b) Conduct a show-up only when the suspect is detained within a reasonable time frame after the commission of the offense and within a close physical proximity to the location of the crime.
  - c) Do not use a show-up procedure if probable cause to arrest the suspect has already been established.
  - d) If possible, avoid conducting a show-up when the suspect is in a patrol car, handcuffed, or physically restrained by officers, unless safety concerns make this impractical.
  - e) Caution the witness that the person he or she is about to see may or may not be the perpetrator and it is equally important to clear an innocent person. The witness should also be advised that the investigation will continue regardless of the outcome of the show-up.

**Subject:****LINE-UP/SUSPECT IDENTIFICATION****Page 3 of 6**

- f) Do not conduct the show-up with more than one witness present at a time.
- g) Separate witnesses and do not allow communication between them before or after conducting a show-up.
- h) If one witness identifies the suspect, use a line-up or photo array for remaining witnesses.
- i) Do not present the same suspect to the same witness more than once.
- j) Do not require show-up suspects to put on clothing worn by, speak words uttered by, or perform other actions of the perpetrator.
- k) Officers should scrupulously avoid words or conduct of any type that may suggest to the witness that the individual is or may be the perpetrator.
- l) Ask the witness to provide a confidence statement.
- m) Remind the witness not to talk about the show-up to other witnesses until police or prosecutors deem it permissible.
- n) Videotape the identification process using an in-car camera, body-worn camera, or other recording device when feasible.
- o) Document the time and location of the show-up, the officers present, the result of the procedure, and any other relevant information.

**680.04      PHOTO ARRAY AND LINE UP PROCEDURE****Subd. 1      Basic Procedures for Conducting a Line-up or Photo Array:**

- a) Line-ups will not typically be utilized for investigations, unless conducting a photo array is not possible.
- b) Whenever possible, a blind presentation shall be utilized. In cases where a blind presentation is not feasible for a photo array, a blinded presentation should be used. Live line-ups must be conducted using a blind presentation.
- c) The line-up or photo array should consist of a minimum of six individuals or photographs. Use a minimum of five fillers and only one suspect.
- d) Avoid the use of fillers who so closely resemble the suspect that a person familiar with the suspect might find it difficult to distinguish the suspect from the fillers.

**Subject:****LINE-UP/SUSPECT IDENTIFICATION****Page 4 of 6**

- e) Fillers should be reasonably similar in age, height, weight, and general appearance and be of the same sex and race, in accordance with the witness's description of the offender.
- f) Create a consistent appearance between the suspect and the fillers with respect to any unique or unusual feature (e.g., scars, tattoos, facial hair) used to describe the perpetrator by artificially adding or concealing that feature on the fillers.
- g) If there is more than one suspect, include only one in each line-up or photo array.
- h) During a blind presentation, no one who is aware of the suspect's identity should be present during the administration of the photo array. However, during a line-up, the suspect's attorney should be present.
- i) Place suspects in different positions in each line-up or photo array, both across cases and with multiple witnesses in the same case.
- j) Witnesses should not be permitted to see or be shown any photos of the suspect prior to the line-up or photo array.
- k) The witness will be given an "Edina Police Department Photographic Line Up Identification" form which lists instructions for the administrator to read aloud. The form will then be signed by the witness after he or she can either identify or eliminate a suspect.
- l) The line-up or photo array should be shown to only one witness at a time; officers should separate witnesses so they will not be aware of the responses of other witnesses.
- m) Multiple identification procedures should not be conducted in which the same witness views the same suspect more than once.
- n) Officers should scrupulously avoid the use of statements, cues, casual comments, or providing unnecessary or irrelevant information that in any manner may influence the witnesses' decision-making process or perception.
- o) Following an identification, the administrator shall ask the witness to provide a confidence statement and document the witness's response.
- p) Line-up and photo array procedures should be video or audio recorded whenever possible. If a procedure is not recorded, a written record shall be created and the reason for not recording shall be documented. In the case of

**Subject:****LINE-UP/SUSPECT IDENTIFICATION****Page 5 of 6**

line-ups that are not recorded, officers or investigators shall take and preserve a still photograph of each individual in the line-up.

**Subd. 2** Creating and Conducting Photographic Arrays:

- a) Use contemporary photos and do not mix black and white photos.
- b) Use photos of the same size and basic composition and do not mix mug shots with other photos. Ensure consistent appearance of photograph backgrounds and sizing.
- c) Do not include more than one photo of the same suspect. Cover any portions of mug shots or other photos that provide identifying information on the subject – and similarly cover other photos used in the array.
- d) Where the suspect has a unique feature, such as a scar, tattoo, or mole or distinctive clothing that would make him or her stand out in the photo array, filler photographs should include that unique feature either by selecting fillers who have the same features themselves or by altering the photographs of fillers to the extent necessary to achieve a consistent appearance.
- e) Fillers should not be reused in arrays for different suspects shown to the same witness.
- f) The photo array should be preserved, together with full information about the identification process as part of the case file and documented in a report.
- g) If a blind administrator is not available, the administrator shall ensure that a blinded presentation is conducted using the following procedures.
  - 1) Place the suspect and at least five filler photos in separate folders for a total of six (or more depending on the number of fillers used).
  - 2) The administrator will take one folder containing a known filler and place it to the side. This will be the first photo in the series. The administrator should then shuffle the remaining folders (containing one suspect and the remainder of fillers) such that he or she cannot see how the line-up members are ordered. These shuffled folders will follow the first filler photo. The stack of photos is now ready to be shown to the witness.

**Subject:****LINE-UP/SUSPECT IDENTIFICATION****Page 6 of 6**

3) The administrator should position himself or herself so that he or she cannot see inside the folders as they are viewed by the witness.

- h) The witness should be asked if he or she recognizes the person in the photo before moving onto the next photo. If an identification is made before all of the photos are shown, the administrator should tell the witness that he or she must show the witness all of the photos and finish showing the sequence to the witness, still asking after each photo if the witness recognizes the person in the photo.
- i) If possible, the array should be shown to the witness only once. If, upon viewing the entire array the witness asks to see a particular photo or the entire array again, the witness should be instructed that he or she may view the entire array only one additional time. If a second viewing is permitted, it must be documented.

**Subd. 3** Conducting Line-ups

- a) Live line-ups shall be conducted using a blind administrator.
- b) Ensure that all persons in the line-up are numbered consecutively and are referred to only by number.
- c) The primary investigating officer is responsible for the following:
  - 1) Scheduling the line-up on a date and at a time that is convenient for all concerned parties, to include the prosecuting attorney, defense counsel, and any witnesses.
  - 2) Ensuring compliance with any legal requirements for transfer of the subject to the line-up location if he or she is incarcerated at a detention center.
  - 3) Making arrangements to have persons act as fillers.
  - 4) Ensuring that the suspect's right to counsel is scrupulously honored and that he or she is provided with counsel if requested. Obtaining proper documentation of any waiver of the suspect's right to counsel.
  - 5) Allowing counsel representing the suspect sufficient time to confer with his or her client prior to the line-up and to observe the manner in which the line-up is conducted.
