- There is no limit to the number of players on team roster.
- A maximum of ten players, five males and five females, can be on the field at one time. A team can play with fewer players, but no more than five males. A team may be made up of all females.
- A minimum of seven players must be present to start a game. If a team does not have enough players by the game start time the game is a forfeit.
- Metal cleats are not allowed.
- No player may wear a fielding glove.

League Rules

- The playing field will be a softball field with 65' base paths and a 50' pitching rubber.
- Any live ball that rolls out of play will result in two free bases for the runners. Example: if a runner is on her way to second base she will be given second base and third base.
- Games are nine innings or 55 minutes, whichever comes first. A game is considered official once four full innings have been completed.
- A legal pitch must be delivered underhand at a moderate speed. A ball that bounces higher than one foot over the plate is considered a ball.
- Any pitched deemed too fast by the umpire will result in a ball. The second infraction by the pitcher will result in replacing the pitcher.
- A pitcher must have one foot on the rubber until the ball is released. After the pitch, the pitcher must stay even with or behind the rubber until the ball is kicked.
- League will use a "Limited Pitcher's-Hand Rule." The kicker is out at first base when a kicked/bunted ball is fielded by the 3rd base player or shortstop and is returned directly to the pitcher, who catches the ball and steps on the pitching rubber, prior to when the runner crosses first base.
 - For this specific force-out play only, the pitching rubber becomes first base.

- The Pitcher's Hand Rule may only be used on the first fielded play by the 3rd base player/shortstop to secure an out. Example: the 3rd base player fields a ball and steps on 3rd base to secure an out. Pitcher's Hand Rule no longer applies because it's not the first fielded play.
- The ball must be touched and fielded only by the 3rd base player/shortstop. If the ball is touched by another fielder there is no pitcher's hand.
- The ball must be fielded on the left side of the infield by the 3rd base player/shortstop to secure an out using the Pitcher's Hand Rule.
- Bunting is allowed. When a male player bunts, the "Limited Pitcher's Hand Rule" is in effect for all infielders. Example: If a male player bunts, the catcher would only have to throw the ball to the pitcher to get an out.
- All fielders besides the catcher and pitcher must remain behind the base path until the ball is kicked. Infraction of this rule will result in kicker getting first base regardless of kick outcome.
- A fielder may throw the ball at a runner for an out. The runner is called out if the ball hits the runner below the shoulders while the runner is off the base. The umpire will interpret the rule as a runner may be sliding.
- The strike zone is one foot above the ground and on both sides of home plate.
- There is no infield fly rule. If a fielder intentionally drops the ball to execute a double play the umpire will determine fielder intent and deem runner and kicker safe.
- League will use the 3 balls and 2 strikes rule with no courtesy foul. The kicker is out on the first foul ball after the second strike.
- Men and women must alternate in the kicking order. All players can kick and teams may use a continuous kicking order. All players present can kick in a continuous kicking order even if unequal amount of men and women.
- If a male kicker is walked, he will be given first and second base. The next batter (female) can select an automatic walk or select to kick.
- Kicker may kick the ball one stride length away from the plate in any direction.
- A runner may slide.
- A runner can't leave the base until the ball is kicked.
